Approval of Employee Benefit Program Changes

Postdoctoral Scholar-fellows

Background

Consistent with Virginia peer institutions (VT, W&M, UVA, GMU), VCU seeks to provide equitable employment for postdoctoral scholar-fellows by granting them access to employment benefits provided to state employees, which are currently offered to VCU's full-time, salaried employees. These benefits include access to the state's health insurance and retirement plans.

The Office of the Vice President for Research and Innovation (OVPRI) oversees VCU's postdoctoral program. Postdoctoral scholars are essential to VCU's research mission and are on career paths to become next-generation scientists. Postdoctoral employment conditions are consistent with the definition of "state employee" in Code of Virginia 51.1-124.3 (used for state retirement and health benefits eligibility) in that they are regularly employed full-time on a salaried basis, their tenure is not temporary or provisional, and their compensation is payable no more often than biweekly, in whole or in part, by an agency of the Commonwealth.

Considerations

VCU employs approximately 160 postdoctoral scholar-fellows who are critical to VCU's research mission. Postdoctoral scholar-fellows not only conduct research at VCU, their professional development includes training graduate students, writing grants and teaching. Employment with full benefits is common for postdoctoral scholar-fellows at peer institutions and making this change will allow VCU to be competitive in recruiting and retaining talent.

Costs/funding

This change will result in a 31.6% increase in the fringe benefit rate for postdoctoral scholar fellows. OVPRI will provide a "hold harmless" period ending June 10, 2024, during which OVPRI will bear the costs of the increased fringe benefit rate (the gap between the current and new rates). After this date, VCU faculty who employ postdoctoral fellows will be responsible for the costs of these fringe benefits and will be included in future research funding proposals.

Recommendation

Approve the resolution to include Postdoctoral Scholar - Fellows in the employee benefits program.

**RESOLUTION OF THE BOARD OF VISITORS OF
VIRGINIA COMMONWEALTH UNIVERSITY**

**AUTHORIZATION AND APPROVAL OF EMPLOYEE BENEFIT PROGRAM
CHANGES FOR POSTDOCTORAL SCHOLARS**

WHEREAS, Chapter 6.1, Title 23 of the Code of Virginia of 1950, as amended (the "Virginia Code") establishes a public corporation under the name and style of Virginia Commonwealth University (the "University") which is governed by a Board of Visitors (the "Board") vested with the supervision, management and control of the University;

WHEREAS, Title 23 of the Virginia Code classifies the University as an educational institution of the Commonwealth of Virginia;

WHEREAS, by Chapter 4.10, Title 23 of the Virginia Code, the University entered into a management agreement with the Commonwealth of Virginia which was enacted as Chapter 594 of the Acts of Assembly of 2008 ("Management Agreement") which, as amended, classifies the University as a public institution of higher education with certain autonomous powers;

WHEREAS, the Management Agreement states that "any new plans, programs and material changes permitted under current law in University employee benefit plans, other than Classified Employee benefit plans, shall be approved by the Board of Visitors;"

WHEREAS, the category of Postdoctoral Scholar - Fellows, as defined in the university's Postdoctoral Scholars policy, is consistent with definition of "state employee" in Virginia Code Section 51.1-124.3, creating eligibility for retirement and health insurance benefits provided to state employees under applicable law;;

WHEREAS, VCU is authorized by Code of Virginia 51.1-126 to operate an optional retirement plan for employees engaged in the performance of teaching, administrative, or research duties; and

WHEREAS, the University wishes to provide eligibility to postdoctoral scholars to participate in state employee health insurance, Virginia Retirement System, the university's Optional Retirement Plan and Cash Match Plan, under the same conditions as term faculty who conduct research in support of the university's mission

WHEREAS, the University wishes to provide eligibility for paid annual leave, sick leave, personal leave, and community service leave to postdoctoral scholars as it is provided to term faculty who conduct research in support of the university's mission;

**NOW, THEREFORE BE IT RESOLVED BY THE BOARD OF VISITORS OF
VIRGINIA COMMONWEALTH UNIVERSITY:**

1. The Board hereby authorizes the President or his designee to add Postdoctoral Scholar - Fellows to the list of employees eligible to participate in state employee health insurance, Virginia Retirement system benefits, and the university's Optional Retirement Plan and Cash Match Plan.

2. The Board hereby authorizes the President or his designee to add Postdoctoral Scholar - Fellows to the list of employees covered by the annual leave, sick leave, personal leave, and community service leave provisions applicable to term faculty.

3. The Board authorizes the President of the University, or his designee, on behalf of the University, to execute and deliver any documents required by and related to the addition of Postdoctoral Scholar - Fellows to the list of employees eligible to participate in the Optional Retirement Plan and Cash Match Plan.

4. This Resolution shall take effect immediately upon its adoption.

Major Capital Projects Update**

Completed projects

Trani Life Sciences Roof & HVAC Replacement

Architect/engineer: DJG, Inc.

Budget: \$7,114,000

Funding source: State Supported Debt

Biennium: 2018-2020

Contractor: Warwick Mechanical

Status: Complete

Description:

This project replaced the rooftop mechanical system and the roof membrane on the Eugene P. and Lois E. Trani Center for Life Sciences on the Monroe Park Campus. The building is a 132,415 square foot teaching and research laboratory facility which houses the Department of Biology, the Center for Environmental Studies and the Office of the Vice Provost for Life Sciences.

Progress:

All work is complete.

Projects under construction

STEM Teaching Laboratory Building

Architect/engineer: Ballinger

Budget: \$124,472,000

Funding source: State Supported Debt, General Fund

Biennium: 2018-2020

Contractor: Hourigan

Status: On schedule

Description:

This new six-story building will be the gateway to foundational science and mathematics instruction for undergraduates at VCU. The need for STEM (science, technology, engineering and math) class laboratory space is urgent based on a space needs

analysis conducted in 2015. This project will build a single 169,000 square foot facility on state-owned land.

Progress:

Construction remains on time and within budget, despite challenging supply chain delays. Anticipated final completion and occupancy will be in spring 2023.

Technology Operations Center

Architect/engineer: PSH+

Budget: \$31,375,000

Funding source: University Debt

Biennium: 2022-2024

Contractor: Mark Turner

Status: On schedule

Description:

The 28,000 square foot facility will be located at 707 West Broad Street adjacent to the Technology Administration Building. The new facility will replace technology operations currently taking place at the state-owned Pocahontas Building. In April 2021, the Commonwealth of Virginia informed the university that it must vacate the Pocahontas Building by December 2023 to provide a site for the proposed Virginia Supreme Court Building. The new Technology Operations Center will serve as the primary data center and network operations hub for both campuses, as well as the telecommunications hub for VCU Health. As such, it will directly or indirectly support all of VCU's and much of VCU Health's critical operations.

Progress:

This project is on an expedited timeline despite supply chain challenges and trade shortages. VCU is currently reviewing the design with the Virginia Department of General Services Division of Engineering and Buildings (DEB) and working with the construction contractor to determine a Guaranteed Maximum Price. Site preparation is underway.

Projects in the planning phase

Arts and Innovation Academic Building (AIAB)

Architect/engineer: William Rawn Associates

Planning budget: \$6,809,000

Biennium: 2022-2024

Contractor: Hourigan

Funding source: University Funds and Future
General Fund

Status: On schedule

Description:

Positioned on the southeast corner of Broad and Belvidere streets, across from the Institute for Contemporary Art at VCU and steps away from Fortune 500 companies and local startups, a new AIAB will provide a launch pad for critical digital and creative economy initiatives both on campus and in the city. The new AIAB will feature flexible classroom spaces, interdisciplinary performance venues and makerspaces for rapidly growing partnerships across arts, business, humanities and sciences, medicine, and engineering. The new building will optimize VCU's arts innovation programs by bringing them together under one roof in a modern facility, replacing old and outdated ones.

Progress:

Extensive estimating efforts are in progress, along with state negotiations to solidify funding.

Founders Hall Building Envelope Rehabilitation

Architect/engineer: Raymond Engineering

Biennium: 2020-2022

Budget: \$3,200,000

Contractor: TBD

Funding source: Maintenance Reserve

Status: Delayed

Description:

Founders Hall is located within the Historic Franklin Street District and houses several College of Humanities and Sciences units. The building is experiencing significant water intrusion issues and requires repairs that include replacement of the roof as well as repairs to windows and the deteriorated masonry exterior.

Progress:

A public RFP resulted in minimal responses and costs that were higher than anticipated. The project requires value engineering to align the scope with funding. Once complete, VCU will release another solicitation.
