COMMITTEE MEMBERS PRESENT:
Mr. Stuart C. Seigel, chair
Ms. Pamela El
Mr. Peter Farrell
Mr. Todd P. Haymore, vice chair
Mr. Edward L. McCoy

COMMITTEE MEMBERS ABSENT:
Mr. Andrew Florance
Ms. Alexis Swann

OTHERS PRESENT:
Dr. Michael Rao, President
Ms. Karol Kain Gray, Senior Vice President for Finance and Budget and CFO
Dr. Meredith Weiss, Vice President of Administration
Staff and students from VCU and VCUHS
Members of the Media

CALL TO ORDER:
Mr. Stuart Seigel, Chair of the Finance, Budget and Investment Committee, called the meeting to order at 12:31 p.m.

APPROVAL OF MINUTES:
Mr. Siegel asked for a motion to approve the minutes of March 21, 2022 meeting of the Finance, Budget and Investment Committee, as published. After motion duly made and seconded, the minutes for the Finance, Budget and Investment Committee meeting of March 21, 2022 were approved.

OPEN SESSION ACTION ITEMS:
Mr. Siegel began by asking Dr. Weiss to present the proposal to amend the Six Year Capital Plan with three projects. Dr. Weiss presented amendments for the three projects:

- **Office of the Provost, 901 West Franklin Street** - The building is located within the Historic Franklin Street District and houses various units and programs of the Office of the Provost. It is experiencing significant water intrusion issues and requires restoration, painting and window sealing. The estimated cost of the project is $2.3M and will be covered by maintenance reserve funds.

- **Hibbs Hall, 900 Park Avenue** - Hibbs Hall requires replacement of major components of its chilled water system. The existing system is at the end of life and replacement of these components will improve energy efficiency and reliability. The estimated cost of the project is $2.025M and will be covered by maintenance reserve funds.
- Technology Operations Center - The Technology Operations Center is a six-story facility being constructed at 705-707 West Broad Street that will house VCU’s relocated computing center. The VCU Board of Visitors approved funding for this project in October 2021 as part of the 2020-2026 Six-Year Capital Plan. Costs rose significantly since October. Contributing factors include material and labor increases, constricted site challenges, and expedited schedule escalation. The total capital cost of the replacement facility is now estimated to be $31,375,000, an increase of $8.8M. It will be funded with university debt.

On motion duly made and seconded, the amendments for the three projects were approved for recommendation of approval to the full board. The Six Year plan amendments are attached hereto as *Attachment A* and are made a part hereof.

Mr. Siegel asked Dr. Weiss to also present the project plans for the Technology Operations Center. The Technology Operations Center is a six-story facility being constructed at 705-707 West Broad Street that will house VCU’s relocated computing center. The upper floors of the facility will provide administrative space to support the services within the facility.

On motion duly made and seconded, the project plans for the Technology Operations Center were approved for recommendation of approval to the full board. The project plans for the Technology Operations Center is attached hereto as *Attachment B* and are made a part hereof.

Mr. Siegel asked Ms. Gray to present the resolution to revise the definition of a capital project requiring board approval.

Ms. Gray presented the recommendation to revise the threshold for board approval of a capital project to align with VCU’s Tier 3 status updating the committee charter via resolution defining a "Capital Project" as a 'Major Capital Project' to projects costing $3 million or more and defining a capital project as the acquisition of any interest in land, including improvements on the acquired land at the time of acquisition, new construction of 5,000 square feet or greater or costing $3 million or more, improvements or renovations of $3 million or more, and Capital Leases.

On motion duly made and seconded, the resolution to revise the approval threshold of capital outlay projects requiring board approval to $3 million was approved for recommendation of approval to the full board. The Resolution for capital outlay projects and revision of committee charter are attached hereto as *Attachment C* and are made a part hereof.

Mr. Siegel asked Ms. Gray to present the proposed 2022-23 Tuition and Fees and University Budget Plan.

Ms. Gray began her presentation reminding everyone that despite significant and unprecedented challenges, VCU has not raised undergraduate tuition for the past three years. The proposed plan recommended a tuition increase by 3%, the first tuition increase for undergraduate students since the 2018-19 academic year. The increase is necessary to cover VCU’s share of anticipated salary
increases for faculty, staff and adjuncts; to increase student support; and to address the higher costs of maintenance and utilities.

Ms. Gray shared the request to increase mandatory student fees by $146 or 4.8% in the 2022-23 academic year, including a $112 increase in the university fee, a $15 increase in the technology fee, a $5 increase in the health service fee, a $10 increase in the academic support services fee and a $4 increase in the library fee for much of the same types of needs and growing costs. VCU’s mandatory fees remain among the lowest for Virginia colleges and universities.

Typical in-state undergraduate students enrolled in 15 credits per semester will pay $15,642 in tuition and mandatory fees in the 2022-23 academic year, an increase of $524. Out-of-state undergraduate students’ tuition and mandatory fees would be set at $37,588, an increase of $1,132.

The proposed budget anticipates a 5% average merit pool increase for faculty and staff compensation. Adjunct faculty would also receive a 5% salary increase.

The board asked how VCU is fairing compared to similar institutions and what budget reductions would be taken to balance the proposed budget. Ms. Gray agreed to provide the requested additional data as Rector Dendy reminded committee members that the budget presentation would also be presented and voted on during the full board meeting tomorrow.

On motion duly made and seconded, the proposed 2022-23 Tuition and Fees and University Budget Plan was approved for recommendation for approval to the full board. (Note: Mr. Farrell abstained.)

**SENIOR VICE PRESIDENT’S REPORT FOR INFORMATION:**

Ms. Gray referenced the SWAM information presented in the committee materials showing the University’s plan to increase SWAM vendors to 15% or $30 million by FY25.

**VICE PRESIDENT FOR ADMINISTRATION’S REPORT FOR INFORMATION:**

Mr. Siegel asked Dr. Weiss to provide her update on the new STEM facility. Dr. Weiss reported that the new facility is nearly complete and will be open for fall 2022.

**REPORTS FOR INFORMATIONAL PURPOSES:**

Mr. Siegel noted that there were several reports for informational purposes, specifically, the Sources and Uses of Funding, Revenue and Expense Summary, VCU Health System and Financial Operations, Treasurer’s Report, Capital Projects Update, and the Finance and Administration Dashboards.

A copy of Ms. Gray and Dr. Weiss’s presentation is attached hereto as Attachment D and are made a part hereof.
CLOSED SESSION:

On motion made and seconded, the meeting of the Finance, Budget and Investment Committee convened into closed session pursuant to Section 2.2-3711 (A) (3) of the Virginia Freedom of Information Act for the discussion or consideration of the acquisition of real property for a public purpose, or of the disposition of publicly held real property, where discussion in an open meeting would adversely affect the bargaining position or negotiating strategy of the public body, specifically related to the acquisition of real property near or adjacent to the Monroe Park Campus and/or MC Campus for the expansion of campus facilities or real property to be used for administrative purposes.

RECONVENED SESSION:

Following the closed session, the public was invited to return to the meeting. Mr. Siegel, Chair, called the meeting to order.

On motion duly made and seconded, the following resolution of certification was approved by a roll call vote:

Resolution of Certification

BE IT RESOLVED, that the meeting of the Finance, Budget and Investment Committee and the Board of Visitors of Virginia Commonwealth University certifies that, to the best of each member’s knowledge, (i) only public business matters lawfully exempted from open meeting requirements under this chapter were discussed in the closed meeting to which this certification resolution applies, and (ii) only such public business matters as were identified in the motion by which the closed session was convened were heard, discussed or considered by the Committee of the Board.

All committee members and other board members in attendance responding affirmatively, the resolution of certification was unanimously adopted.

On motion duly made and seconded, the closed session resolutions to recommend approval to the full board were approved by a roll call vote.
ADJOURNMENT:
There being no further business, Mr. Siegel adjourned the meeting at 1:45 p.m.
Amendment to the 2020-2026 Six-Year Capital Plan
Office of the Provost, 901 West Franklin Street

Background

The building at 901 West Franklin Street is located within the Historic Franklin Street District and houses various units and programs of the Office of the Provost. The building is experiencing significant water intrusion issues and requires repairs to include repointing of mortar joints, repairs to head flashing at windows, repair/replacement of downspouts, gutters and site drainage systems, and repair/replacement of portions of the multi-roof system. The project also includes restoration, painting and sealing of windows.

Considerations

The repairs needed in 901 West Franklin Street meet the criteria for use of maintenance reserve funds. The Commonwealth of Virginia limits the use of state-appropriated maintenance reserve funds to $2M or less for a single project, but provides an exception to the $2M limit on a case-by-case basis. The university received approval of an exception for this project based on the $2.3M estimated cost of work. Projects exceeding $2M also require approval from VCU’s Board of Visitors.

Cost and funding source

The estimated cost of the project is $2.3M. Maintenance reserve funds will be used.

Recommendation

Approve amendment of the university’s 2020-2026 Six-Year Capital Plan to undertake major repairs to 901 West Franklin Street using maintenance reserve funds at a cost not to exceed $2.3M.
Amendment to the 2020-2026 Six-Year Capital Plan
Hibbs Hall, 900 Park Avenue

Background

Hibbs Hall, located at 900 Park Avenue on the Monroe Park Campus, houses the Transfer Center, the Campus Learning Center and the Testing Center as well as large lecture halls and offices of the Department of English. Replacement of major components of the chilled water system serving this building is needed. The existing system is at the end of life and replacement of these components will improve energy efficiency and reliability.

Considerations

Replacement of the chilled water system equipment at Hibbs Hall meets the criteria for use of maintenance reserve funds. The Commonwealth of Virginia limits the use of state-appropriated maintenance reserve funds to $2M or less for a single project, but provides an exception to the $2M limit on a case-by-case basis. The university received approval of an exception for this project based on the $2.025M estimated cost of work. Projects exceeding $2M also require approval from VCU’s Board of Visitors.

Cost and Funding

The estimated cost of the project is $2.025M. Maintenance reserve funds will be used.

Recommendation

Approve amendment of the university’s 2020-2026 Six-Year Capital Plan to replace the chilled water system equipment at Hibbs Hall using maintenance reserve funds at a cost not to exceed $2.025M.
Amendment to the 2020-2026 Six-Year Capital Plan
Technology Operations Center, 707 West Broad Street

Background
The Technology Operations Center is a new six story facility being constructed at 705-707 West Broad Street. The 27,000 gross square foot facility will house VCU’s computing center which is being relocated from its existing location in the Department of General Services’ (DGS) Pocahontas Building. This site operates as the primary data center and network operations hub for VCU on both campuses, as well as serves as the telecommunications hub for VCU Health. As such, this facility directly or indirectly supports all of VCU’s and much of VCU Health’s critical operations. The upper floors of the facility will provide administrative space to support the services within the facility.

The VCU Board of Visitors approved funding for this project in October 2021 as part of the 2020-2026 Six-Year Capital Plan and, in March 2022, approved the architect selection for the project.

Considerations
Costs rose significantly since October, from an estimated cost of $580 per square foot to an estimated $970 per square foot. Contributing factors include an increase in scope identified during schematic design, material and labor increases, constricted site challenges, and expedited schedule escalation. The increase in project cost is consistent with market trends.

Cost and funding source
The total capital cost of the replacement facility is now estimated to be $31,375,000, an increase of $8.8M. The total capital cost – both the original amount and the increase – will be funded with university debt.

Recommendation
Authorize an amendment of the university’s 2020-2026 Six-Year Capital Plan to increase the total project cost of the Technology Operations Center from $22,575,000 to $31,375,000.
Background

The Technology Operations Center is a new six story facility being constructed at 705-707 West Broad Street. The 27,000 gross square foot facility will house VCU’s computing center which is being relocated from its existing location in the Department of General Services’ (DGS) Pocahontas Building. This site operates as the primary data center and network operations hub for VCU on both campuses, as well as serves as the telecommunications hub for VCU Health. As such, this facility directly or indirectly supports all of VCU’s and much of VCU Health’s critical operations. The upper floors of the facility will provide administrative space to support the services within the facility.

The VCU Board of Visitors approved funding for this project in October 2021 as part of the 2020-2026 Six-Year Capital Plan and, in March 2022, approved the architect selection for the project. VCU now seeks board approval for project plans, which illustrate the functional layout and adjacencies of the building. The project plans were developed collaboratively with the design architect, Technology Services and Facilities Management.

Cost and Funding

The total project cost for the Technology Operations Center is $31,375,000 and is funded by university-supported debt.

Recommendation

Approve project plans for the Technology Operations Center.
First Floor Plan

Office

Circulation
Third Floor Plan
Sixth Floor Plan
The Board of Visitors, consistent with the full and ultimate authority and accountability provided for in its Management Agreement with the Commonwealth of Virginia acting through the Governor and the General Assembly pursuant to the Restructured Higher Education Financial and Administrative Operations Act (Chapter 4.10 of Title 23.1 of the Code of Virginia), does hereby revise the threshold for defining a "Capital Project" as a 'Major Capital Project' to projects costing $3 million or more. Therefore, more specifically, the term 'Major Capital Project' is hereby defined in Section II (Definitions) of Exhibit A of the Management Agreement (Policy Governing Capital Projects) as follows: 'Major Capital project means the acquisition of any interest in land, including improvements on the acquired land at the time of acquisition, new construction of 5,000 square feet or greater or costing $3 million or more, improvements or renovations of $3 million or more, and Capital Leases.' The Board hereby directs that the FBI Charter and all other relevant University policies and processes be revised accordingly.

NOW, THEREFORE, BE IT RESOLVED that, upon approval, this action shall take effect immediately.
